No one knows how long we're gonna be here

No one knows how long until we die

No one knows but maybe that's familiar

C'mon now and just give it a try

I don't know where you've come from

I don't know where you've been

I don't know who to believe now

I don't know who's my friend

When we hear the thunder and the lightning

When we hear the falling of the trees

When we see that we have all been foolish

We should have listened closer and believed

I don't know where you've come from

I don't know where you've been

I don't know who to believe now

I don't know who's my friend
