"One More Hangover"

Visit "[One More Hangover](#)" on MotoLyrics.com

Distance you far away from me
Your daylight's not my cup of tea

I can't pretend that I have time to spend
My medication takes the pain away
I'm sleeping through one more hangover day

Inside my clouded memory
I'm underneath my apple tree

I can't pretend that I have time to spend
My medication takes the pain away
I'm sleeping through one more hangover day

Give me an antidote for my heart
So everyone can have their share
Everyone can share (3x)
Does anyone care

Distance you far away from me
Your daylight's not my cup of tea

I can't pretend that I have time to spend
My medication takes the pain away
I'm sleeping through one more hangover day
