Something's true and something's cool I beg you won't resist

Once a dream and once it's real I hope you will be true

I don't know if you care what I say

I don't know if you care what I do

I don't know if you care what I feel

I don't know if you care about me

I look around still on the ground I keep this fear inside

You could be safe you could be home you're stuck in a delusion

I don't know if you care what I say

I don't know if you care what I do

I don't know if you care what I feel

I don't know if you care about me

And I was just about burning to free myself from the boundaries

When a big black shape came like a thunder with a deafening noise

It's coming down on me

I said: Go away you're the demon I always wanted to get rid of you and now

And now you're back and now you're back just to steal my dreams

I was preparing for reality

He said: Listen! I'm the one to free your mind I'm the
one to open your eyes

Who is the devil and who is the priest it's all in you and
now go ahead

Before you die

I want you so I need you so I love you so I chose

The riddle's back the virtue rules I just collected all my
tools

I don't know if you care what I say

I don't know if you care what I do

I don't know if you care what I feel

I don't know if you care about me
