I don't care that you're feeling bad  
No one can play with my mind  
Fighting for the right everyday  
But I cannot take that yet  
When I was a young boy, they said  
"You're only getting older"  
But there was a limit in their opinion  
In my life, the trouble is full

I'm living for today Show me the way to go  
I just feel the noise No one can save my mind  
I'm living for today Show me the way to go  
Always play with the devil  
Hey, can you follow me?

Don't touch It's not an easy game  
Don't touch It's not an easy game

In the end, I drop out from the town  
Everyone laughed at me  
Fighting for my right everyday  
But I cannot take that yet  
When I raised my hand in your side  
You tried to cut with you knife  
There's nothing to believe in  
In my life, the trouble is full

I'm living for today Show me the way to go  
I just feel the noise No one can save my mind  
I'm living for today Show me the way to go  
Always play with the devil  
Hey, can you follow me?

Don't touch It's not an easy game  
Don't touch It's not an easy game
