For years I was numb, felt no regrets
But, there's hell to come, cast out like a net
I surrounded myself with outsider art
You murdered my spirit and life fell apart

Alone in the garden, unloved by the sea
With none of the saints, watching over me
Nothing lasts forever, nothing you can keep
My days blur together, my nights last a week.
Time is a bastard, routine a whore
The sun is exploding, we're heading for war

While everyone's sleeping, the moon holds a knife
Curse of twenty seven almost ended my life
But, in that brief moment, our lives did collide
Freedom from chaos with you by my side
No need for searching through old holy books
I know death is coming, I've seen how he looks

Our lives, they collide.
Our lives, they collide.
Our lives, they collide.
Our lives, they collide.

Born out of violence, baptized by fire
Thrown in the snake pit, get out alive
Born out of violence, baptized by fire
Thrown in the snake pit, get out alive

Nothing lasts forever, nothing you can keep
My days blur together, my nights last a week
Time is a bastard, routine a whore
The sun is exploding, we're heading for war

Our lives, they collide.
Our lives, they collide.
Our lives, they collide.
Our lives, they collide.
Our lives, they collide.
Our lives, they collide, they collide.
Our lives, they collide, they collide,

They collide, they collide, they collide.
