Walking in sleepless night  
I'm calling you. I wander gloom  
Flowing the noise of night  
that shakes my mind  
Please take my hand

I know that no one can  
keep holding the light  
The light will bring the hope to your life  
But it isn't realized

Calling on you, I stand alone  
(I wanna get close to your side)  
Out of the night, I'm looking for you  
Even if there is no future  
Calling on you, I stand alone  
(Why don't you hear?)  
I wanna get close to your side  
(I've lost my mind)  
Out of the night, I'm looking for you  
Even if there is no future  
I just feel the pain of the world

Into the heat of night, I've lost my way  
Cry for the moon  
Illusion of your eyes that shakes my mind  
Please back in me

I know that no one can  
keep holding the light  
The light will bring the hope to your life  
But it isn't realized

Calling on you, I stand alone  
(Why don't you hear?)  
I wanna get close to your side  
(I've lost my mind)  
Out of the night, I'm looking for you  
Even if there is no future  
Calling on you, I stand alone  
(Why don't you hear?)

I wanna get close to your side  
(I've lost my mind)  
Out of the night, I'm looking for you  
Even if there is no future  
I just feel the pain of the world

I know that no one can  
keep holding the light  
The light will bring the hope to your life  
But it isn't realized

Calling on you, I stand alone  
(Why don't you hear?)  
I wanna get close to your side  
(I've lost my mind)  
Out of the night, I'm looking for you  
Even if there is no future  
(Why don't you hear?)

Calling on you, I stand alone  
(Why don't you hear?)  
I wanna get close to your side  
(I've lost my mind)  
Out of the night, I'm looking for you  
Even if there is no future  
Calling on you, I stand alone  
(Why don't you hear?)  
I wanna get close to your side  
(I've lost my mind)  
Out of the night, I'm looking for you  
Even if there is no future  
I just feel the pain of the world
