I will take good aim at the target  
It is you  
Give myself up to pleasure  
I don't rue  
I wander about in search of new game at tonight  
It's you  
Give yourself up to pleasure  
You don't rue

Buy time!  
I can drive a hard bargain  
Let's talk about suffering and love  
Don't say "Bye"  
Come out!  
What beautiful eyes you have!  
It's a sin  
Don't look down  
I don't tell a lie

Were you deceived many times?  
Can't believe the world  
Wander lonely as a stranger  
Yes! It's time!  
Can you hear my true words?  
Let's hope for the best now  
Time will surely solve a problem  
Don't follow the herd  
I surely heal your heart and I receive all of you

I found you by chance and I fastened my eyes on you  
tonight  
I can feel something special  
Hold me tight

How's tricks?  
Why do you look so sad?

Let's talk about suffering and love  
Don't say "No"  
Come quick!  
What a beautiful voice you have!

It's a sin  
Don't look down  
I do not go slow

Were you betrayed many times?  
You can't believe anything  
Wander lonely as a stranger  
Yes! It's time!  
Can you feel my true mind?  
Let's hope for the best now  
I will surely solve a problem  
It's all in the mind  
I surely heal your heart and I receive all of you

Were you deceived many times?  
Can't believe the world  
Wander lonely as a stranger  
Yes! It's time!  
Can you hear my true words?  
Let's hope for the best now  
Time will surely solve a problem  
Don't follow the herd

Were you betrayed many times?  
You can't believe anything  
Wander lonely as a stranger  
Yes! It's time!  
Can you feel my true mind?  
Let's hope for the best now  
I will surely solve a problem  
It's all in the mind  
I surely heal your heart and I receive all of you
