The agony of human race, never leave like a shadow  
The end of life, now we can feel the time  
Throw the stone to lake of tears  
Can you hear the sound of sadness  
Remember now, the pain we took on the road

We want see some other way, but we are blind  
Give me a light and show me the way  
We still walk alone  
I can't fight this feeling

In everything we can feel the joy of freedom  
It's not a dream, I wonder  
Let me feel your heart that full of joy  
Now all the game is over

Now got a heat of new legend  
We believe the light of freedom  
Create your life  
Now we can feel the time  
Bring the storm of the ancient rage  
Can you hear the sound of darkness  
Remember now, the pain we took on the road

We want see some other way, but we are blind  
Give me a light and show me the way  
We still walk alone  
I can't fight this feeling

In everything we can feel the joy of freedom  
It's not a dream, I wonder  
Let me feel your heart that full of joy  
Now all the game is over

I can see the light  
I can feel the warm  
The time is right for changing, changing yeah  
Like a wind, I ride  
No one can stop the try  
Only we'll go ahead to the garden of the goddess

In everything we can feel the joy of freedom

It's not a dream, I wonder  
Let me feel your heart that full of joy  
Now all the game is over

Please let me see your garden  
The goddess is always there for you  
Please let me see your garden  
The goddess is always there for you  
Please let me see your garden
