wake up every morning
tell me something that i want to hear
give me something now that i don't have to fear
i'm whurring like a motor
tell me what i want to do
all i know now is that i want to get next to you, again
everybody gather 'round and raise up the flag
it's a new revolution, yeah one you never ever had
yeah, get up and dance
this is something that you know that is ? the same
when this whole world just falls right 'round the way
i don't want to hear you laugh, don't want to hear your
stories, oh no
all i want to hear now is a nasty rock and roll
so give me some now
so give me some na-na-now
shake up and dance
stand up and dance
?????????
?????????
tell me something nice, tell me something nice i can
love
i want to love, i want to love
i want to love, i want to love!
it's a new revolution, yeah one you never ever had
yeah, stand up and dance
shake up and dance, baby
come on now, my baby
get up and dance, my baby
come on now, my baby
get up and dance!
