Hold up your end

And I'll hold up mine

Dancin' all the time

Dancin' all the time

And too late father

You know that that's for sure

You never find a way

Never find a way

So gather around

And see what the day brings

And see what makes you laugh

And see what makes you sing

And never, nevermind

The thing that people say

You'll never go away

You'll never go away

Who knows where the storm will take us

Who knows when the pain will break us

When will all the G's be given

Another chance to live in freedom

Hey now

Get your heart, get your heart

Off of the shelf

Make the grey sky blue

Yeah, I'm talkin to you

And nevermind

The sick and the afraid  
Askin' out today to see a brighter day  
So gather around

And see what the day brings

And see what makes you laugh

And see what makes you sing

And never, nevermind

The thing that people say

You'll never go away

You'll never go away  
Who knows where the storm will take us

Who knows when the pain will break us

When will all the G's be given

Another chance to live in freedom  
So gather around

And see what the day brings

And see what makes you laugh

And see what makes you sing

And never, nevermind

The thing that people say

You'll never go away

You'll never go away

So gather around

And see what the day brings

See what makes you laugh

And what makes you sing
