Hilltop fortification, machine-gun nest staffles the
approaching attack, legions fleeing out, over the
mountains of the dead, fighting in the ruins of the
fortified zone.

The fortified zone, the fortified zone, the fortified
zone.

Overheating engines, spewing kerosene rocket-bombs
exploding all your friends, enemy formations, wrecking
up your legs, lying in the ruins of the fortified zone.

The fortified zone, the fortified zone, the fortified zone
(fortified zone)

Hilltop fortification, blown to smithereens, screaming
death they have you in their sights, for you there is no
mercy, blasted in the mind, and rotting on the ruins of
the fortified zone.

The fortified zone! [x4]

Attack! Attack! The fortified zone. [x4]
