[Game whispering]  
Its Murder

[The Game talking]  
It's 07 shit  
We runnin' through summers  
in dual hummers  
and tell them my crew coming for war

[Verse 1]  
AY YO!  
I can't let the day go without lettin' the K go  
Now watch his face blow, YAYO!  
Heard you hidin' in the big apple  
Better keep hidin' 'for them Puerto Ricans kidnap you  
9-3 gangsta ties  
hatians down in Miami (zoe gang!)  
yeah, them hatians down in Miami  
Fat Joe don't fuck with you, Nas don't like you  
So who they gonna blame when they long nose snipe  
you  
Potato on the mussel, black tape on the grip  
We in the A-Team van with black tape on your bitch  
She gonna tell us where you at  
We gonna twist that dro'  
and just wait 'til that rat come out the that hole  
No, the streets ain't safe  
When we see him we gonna eat that face  
No body we gonna beat that case  
Yeah, it's on again, two shots of patron I'm in  
Drive slow and let the motherfuckin' chrome extend

[Chorus:(The Game)]  
Out in the streets they call it murder (whispering:  
murder, murder, murderer kill, kill, kill...)  
(You can't fuck with the real!)  
Out in the streets they call it murder (murder, murder,  
murderer kill, kill, kill...)  
(Nigga, don't cross the real!)  
They call it murder They call it murder They call it  
murder  
(murder, murder, murderer kill, kill, kill...)

They call it murder  
(You can't fuck with the real!)  
They call it murder They call it murder They call it  
murder They call it murder  
(Nigga, don't cross the real!)

[Verse 2]

What type of bitch niggaz put his hands on kids  
(HOMO!)  
Pull up that black van on his (Nope)  
We don't do the kid slap, nah we do the kid snatchin'  
Eyewitness news, there's been a kidnappin'  
Feed 'em real good, takin' home to play with Harlem  
Sit by the phone, just wait it's your daddy callin'  
Nah, we don't get down like that  
but 50's momma we'll put you in the ground like that  
Cuuuurtiss  
Tryin' to make peace with Dipset  
but you ain't even address the beef with Jin yet  
It's on now, better call dr. Ben and Russell  
Set up a peace treaty or go get some muscle  
Call the lighty brothers, call all your lil' flunkies

Call the snitch hotline and get the G-Unit monkeys  
Call the cops, I'm still 100 miles an runnin'  
Then call the God and tell him that your ass is comin'

[Chorus:(The Game)]

Out in the streets they call it murder (murder, murder,  
murderer kill, kill, kill...)  
(You can't fuck with the real!)  
Out in the streets they call it murder (murder, murder,  
murderer kill, kill, kill...)  
(Never cross the real!)  
They call it murder They call it murder They call it  
murder  
(murder, murder, murderer kill, kill, kill...)  
They call it murder  
(You can't fuck with the real!)  
They call it murder They call it murder They call it

(Never cross the real!)

[Verse 3]

This ain't "Ether", nah, this ain't "Hit 'em up"  
This is a lot of dead bodies, who gonna pick them up  
We just shot the coroner  
Who gonna drive the truck  
Fuck the whole G-Unit, who lied to Buck  
Fuck Spider too, now that's for Big Face  
I know where you countin' your sheeps

I'll have some Crips waitin'

You kiss Akisha in that mouth, tell me how my dick  
taste(uhh)  
I got the crown nigga, it's going down nigga  
and Los Angeles - it's my town nigga!  
I got a place where bodies don't get found nigga  
Where the dead sleep and ghost don't make a sound  
nigga  
The real 50 Cent, he knew Jimmy Henchmen, the real

Look at them niggaz flinchin'  
We ain't gonna do shit  
I'll have your crew sit  
So play like them is toy guns and this is just music

[Chorus: (The Game)]

Out in the streets they call it murder (murder, murder,  
murderer kill, kill, kill...)  
(You can't fuck with the real!)

(Don't ever cross the real!)
