The Game "Heaven" Lyrics

[Speaking]

How many times I gotta go platinum for you niggaz to say congratulations?

How many motherfuckin' Ferraris do i gotta leave at the dealership for you niggaz to stop hatin'?

I got patience... and I'm waitin'

[Chorus]

If you love me say that you love me and if you hate me say that you hate me

If you love me say that you love me but if hate me nigga come take me to heaven

I'm ready to go to heaven can't wait to get to heaven so come take me to heaven

Just come take me...take me.

[Verse 1]

Ma daddy said he brought in and he said he'll take me out but I'm still here

Put the tape around my daddy's mouth back that phantom in that garage

Pull that caddy out ride like I'm Tiger Woods nigga bring them caddies out

Fitted cap hanging low arms all tatted out gold grill ocho cinco what that naughty about

Niggaz get offended by my rims what's that about doin' it big like I used to record in daddy's house

I got big nuts, big cars, big trucks, big house, and my big ego that'll get ma dick sucked

And I spit that crack you better get your bricks up and I spit that crack you better get your bricks up

Motherfucker

[Chorus]

If you love me say that you love me and if you hate me
say that you hate me
If you love me say that you love me but if hate me
nigga come take me to heaven
I'm ready to go to heaven can't wait to get to
heaven so come take me to heaven
Just come take me...take me.

[Verse 2]

I be with snoop saying cuz in ma hood with the bloods
every bro in New York niggaz gotta show me love
When I fuck with luda and Georgia nigga showing
slugs none less than 20 stacks every time I throw it up

Dre put the chronic in every hood so roll it up better do
it now coz that drug money is slowin' up
Southside queens to the bay were they goin' dump
fuck what they payin' if it's hood then I'm
showin' up
Nigga I'm blowin' chest all frozen up and I
been getting money since Jay Z used to open for Kane
Blow the dust off the range dust off them things then
knock out your brains I said
Before they came I dust off the range blow the dust off
them things and knock out your brains
Keep the motherfuckin' change.

[Chorus]

If you love me say that you love me and if you hate me
say that you hate me
If you love me say that you love me but if hate me
nigga come take me to heaven
I'm ready to go to heaven can't wait to get to
heaven so come take me to heaven
Just come take me...take me.

[Verse 3]
