You ain't gotta say byebye, baby this is hello
Put your hands in the sky, that's where we gon go
I like you so I gotta put a ring on that
You the one that I wanna put everything on that
Let's go (Let's go), baby this is hello

Let's ride...

She used to wake up to the view
Now she wake up with a view
Used to wake up to a kiss
Now she wake up to a shoe
Used to dream about millions
Now she workin with a few
Used to know one Porsche, now she know two
I'll handbags stuck to her like glue
Minks and chinchillas, whole closet like a zoo
Agent Provocateur, Louis and lots of Dior
All her friends wearing Gucci so she don't rock it no
more
Everytime we in Jimmy Choo, they gotta lock up the
store
Walk out with boxes galore
Next week she cop her some more
Alexander McQueen cause she my queen
Spent an Aston Martin on the ring...

You ain't gotta say byebye, baby this is hello
Put your hands in the sky, that's where we gon go
I like you so I gotta put a ring on that
You the one that I wanna put everything on that
Let's go (Let's go), baby this is hello

Soon as them butterfly doors go up on the Ferrari
She step outside the car on there, stumble into Bulgari
Fall in that YSL, try it on, you fly as hell
Don't really like it, but I'm buying it: might as well
Have her own reality show: no drama
Grab your girl, we're shooting real housewives in the
Bahamas
2-piece Hermes, Bottega Veneta flats
Heard Diddy out here so you know where the party at

We on... and I ain't even gotta ask twice
Cause when we hit the room she up and down like the
gas price - damn!
Got chills thinking of last night
I swear you was a goddess in your past life

You ain't gotta say goodbye, baby this is hello
Put your hands in the sky, that's where we gon go
I like you so I gotta put a ring on that
You the one that I wanna put everything on that
Let's go (Let's go), baby this is hello

Girl, Girl, come on girl let's ride

Girl I know you wanna get away
This hotel room, that's where it goes down
And I know we never get away
Just give me a couple minutes and I'm in it
We all over the table,
ain't no problem with you sweating on me
And I ain't pulling out, I'm tryna have fun
I know you tryna have fun...

You ain't gotta say goodbye, baby this is hello
Put your hands in the sky, that's where we gon go
I like you so I gotta put a ring on that
You the one that I wanna put everything on that
Let's go (Let's go), baby this is hello
