She got on tights with the leather skin  
She a rockstar, bring the heavy metal in  
Girl shaped like a coke bottle, Medellín  
In love with her 'til she went and let the devil in  
She pop pills like medicine  
She probably gon' die, it's startin' to be evident  
I told her, "Slow down, girl you're heaven-sent"  
I'm a thug but I got a heart like Kev in there  
And I can't let this girl throw her life away  
Kick the door in the room and told her to put the knife  
away  
Took her to the hospital like right away  
She a angel with demons, the girl like night and day  
Stressed out, parents getting divorced  
Girl love 'em both, she ain't tryin' to sit in court  
She a square so it's hard to see the angle  
And that's why God gave her an guardian angel, it's  
me  
And I'm here for her, swear to God that I'm here for her  
Last nigga got her caught up in the airport  
She ain't had no pride, so she went and did a year for  
him  
She a ride-or-die, like Eve and them  
Make home-cooked meals every evening  
Start stripping on the side, now I'm tipping on the side  
Love life like Joselin and Stevie and them  
Am I wrong for being the best that I can to her  
Takin' her son and tryin' to be a man to him  
She don't wanna pray, but I told her put her hands to it  
I done came a long way from that tan Buick  
Yeah, grandmother would be proud of me  
Almost got the devil all the way the fuck out of me  
Remember momma knockin' on the door H.A.M  
Then he bought her a car and a crib even though she  
doubted me

When I wake up every day  
Even though she doubted me  
I thank the lord that we are safe  
Even though she doubted me  
Again, yeah

Even though she doubted me  
That's why we pray for me  
That's my momma and I love her with my heart like I  
love you  
If you strugglin', baby daddy ain't takin' care of the  
kids girl  
You can get a hug too  
I'm here whenever you need me  
Gon' reach out, it's that easy  
I love women, cause without women  
Wouldn't none of us niggas be breathin'  
So let's

(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head

Cole  
Good girl at heart I remember you well I remember you  
well  
Got a husband and kid, but I flirt  
Hope you do a little dirt cause I'm diggin' you still  
That's real, but na you don't text back  
And deep down I respect that  
Cause even though a nigga wanna tap that shit  
I don't wanna be the one to wreck that shit, so  
So I fall back, year go by I got more plaques  
Just to call from you tellin' me you miss me  
And you wanna see me next time the tour's back, damn  
Well what changed then?  
She tellin' me a nigga had her caged in  
Every time she think about me on the road  
She be cryin' realizin' all the places that she ain't been  
Well it's cool, I'll pick you up  
Hold you down, lift you up  
These other niggas try and fuck  
I'm the only one who cut and still came back to stitch  
you up  
So we fuck, say what?  
You ain't been home lately, you ain't heard that nigga  
Her man left cause she cheated on his ass  
Found her pills in a bag, yo she burned that nigga  
She burned that nigga  
Say what? She burned that nigga  
Say what? She burned that nigga  
Dog, she burned that nigga

He beat her ass in the crib  
Then he went and did a bid all cause a bitch burned  
that nigga  
Now dog, that's real ass shit  
That's word around the ville ass shit  
Get the strap up, get the strap up  
Please tell me that you strapped up nigga  
We could kill that bitch if you want to  
I'm cool, I strapped up, played by the rules, damn  
While I'm sittin' here blessed, she at the crib all alone  
and she stressed  
So nigga I

(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head  
(Pray) bow your head

When I wake up every day  
I thank the lord that we are safe  
Again, yeah  
That's why we pray for me  
When I wake up every day  
I thank the lord that we are safe  
Amen, ooo  
That's why you should pray for me  
That's why you should pray
