Game Theory
"If And When It Falls Apart"

Hey, Ironclad do you see me getting it bad
With your hair down in your eyes?
You don't try, the love you need is there when you cry
Oh girl it must be nice
This city brings me down, it always brings me down
Take a look around--What's going to get you through
If and when it falls apart on you?
It's come slow but now I think I know what you mean
And how it must feel so wrong

Trust your mind and when you think it's time you can
I won't ask what took so long
This city brings me down, it always wears you down
Take a look around--What's going to get you through
If and when it falls apart on you?
This city brings me down, all cities bring me down
Take a look around--What's going to stand as true
If and when it falls apart on you?
