# "Where You Going Northern"

Visit "[Where You Going Northern](https://www.motolyrics.com/lyrics/game-theory/where-you-going-northern)" on MotoLyrics.com

Where you going northern?  
South into town?  
Longer waits, closer friends  
What's come upon you?  
Where you going Maggie?  
Where I can't go?  
But things I am extend to you  
And stay around you  
And always find you  
It's all too true now

That you see the world just as I do  
And we do the things that I say to  
But one day you'll do what you want to  
Maggie

When I hear your name out loud  
My breath drops down  
To know I've come and had my time  
And done so much wrong

Where you going northern?  
From warm to cool  
And so to cold as things must go  
And that day I'll leave you  
And I'll spend it crying  
And I feel it coming soon

'Cause you see the world just as I do  
And we do the things that I say to  
But one day we all do what we have to  
Maggie
