With your cheating and your lying  
Watch it spread all over town  
Do you really  
Think you're gonna get me down  
When I saw you walking with him  
I was burning up inside  
But I had to hold my head up  
This is my pride

When the sun comes up  
And wakes me in the morning  
As the day goes on  
I'm out there to win the race  
I get by  
I'll keep my hurt inside me  
You'll never see a tear  
Upon my face

Well I listened  
When you told me you loved me  
Woman I believed you  
Like a doggone fool  
How could I know  
OOh you would leave me  
And walk away  
But I know, I know baby  
You'll never find another man, no  
Who's gonna love you

Keep on wanting you, the way I do

When the sun comes up  
And wakes me in the morning  
As the day goes on  
I'll be out there to win the race  
I'll get by  
I keep my hurt inside me  
You'll never see a tear  
Upon my face  
Baby there ain't no way

Well I listened  
When you told me you loved me  
Woman I believed you  
Like a doggone fool  
How could I know  
You would leave me  
And walk way  
But I know, I know woman  
You'll never find another man, no  
Who's gonna love you  
Keep on wanting you, the way I do

Repeat 2nd Chorus

No no no no tears  
Ooh whoo baby  
Baby there ain't no way
