Don't walk away  
Dry your tears  
Throw the helmets on  
Cuz' war is here  
But what happens when I'm gone and this moment  
Promise me you'll be waiting

It's easy to fall away from you  
We're so far away  
And I've been searching for way too long  
And where did I go wrong  
What did I do to get stuck here alone  
And I'm just sure there's no way out now

I can barely stand up now  
You got me stranded  
Keep your hands against mine  
I swear we'll make it out alive

The sun will rise  
We'll go on tonight

It's easy to fall away from you  
We're so far away  
And I've been searching for way too long  
And where did I go wrong  
What did I do to get stuck here alone  
And I'm just sure there's no way out now

No way out now
