Music: Rubach / Lyrics: Hansen  
Do you believe in the afterworld  
Or the afterlife?  
Do you agree there's a place for us  
Beyond our life  
Where the timeless call for life  
Is lost and you will see  
The forgotten dreams  
That you once had become reality  
They will be set free - another day  
You cannot leave if you do not want to stay  
In the afterlife - in the afterlife  
Life's a dream that you will forget  
In the endless space  
And the scars you got on planet Earth  
Will be erased  
You were blind until your eyes  
Have stopped to see

And your powers unfold by the moment  
You hit eternity  
You will be set free  
But you'll never return  
That's the price you have to pay  
In the afterlife - in the afterlife  
Solo: Kai  
Now you're gone without a word  
You didn't say goodbye  
I miss you here where are you now  
An angel in the sky?  
Your visit here has been so short  
You left to be set free  
But I believe we'll meet again  
And together we will stay  
In the afterlife - in the afterlife  
In the afterlife - in the afterlife  
(Dedicated to Ingo Schwichtenberg)
