Do you believe in justice  
Or so-called co-existence?  
What's wrong with politicians?  
They give their best for you

The economic's growin'  
Some tiny holes above  
A little radiation  
Wake up this planet fades

You are not watching, you're part of the show  
You lost the first prize a long time ago

WAR - somebody's always starts again  
HATE - we're getting closer to the end

As time goes by  
(We never seem to beat the ones  
Who say we can't be free)  
As time goes by

Do you believe in money?  
Do you believe in guns?  
Do you trust the press, babe?  
You'd better judge yourself

You are not watching, you're part of the show  
You lost the first prize a long time ago

WAR - somebody's always starts again  
HATE - we're getting closer to the end

As time goes by  
(We never seem to beat the ones  
Who say we can't be free)  
As time goes by

The missiles are launching, the tanks are rollin'  
The guns are blazing, the sky turns black

WAR - somebody's always starts again  
HATE - we're getting closer to the end

As time goes by  
(We never seem to beat the ones  
Who say we can't be free)  
As time goes by

As time goes by  
We never seem to beat the ones  
Who say we can't be free  
As time goes by  
We're getting closer to the end of our ability  
As time goes by  
Is there a place to run for shelter in a high tech war  
As time goes by  
Can you believe and trust in God  
To help you from above  
As time goes by  
Is there a place to run for shelter in a high tech war  
As time goes by  
Can you believe and trust in God  
To help you from above
