[muzax+lyrix: Hansen]

I crawl across the floor never see the light  
Only shadows on the wall  
Somebody said there's reality behind  
But I'm afraid to turn and fall - oh no

Set me free - for eternity

And now they talk about my destiny again  
I hear their footsteps in the dark  
But then again there was the silence and the pain  
Uh, Lord that made me feel so lost

Help me - get out of here  
Save me - my world's an illusion

[Bass - solo/Kai/Dirk/Kai/Dirk]

I'm still inside the cave imprisoned in my mind  
And silhouettes on the wall  
I have to turn around to see what's goin' on  
Cause what I saw was never all

Just a move is the solution  
It's not enough to stand and stare  
Leave the cave and find a reason  
For the cross you have to bear

Never return to the principle
