"Flood And A Fire"

Hittin' it hard night after night
Day after day, you know it ain't right
Slow as a glass you're slipping away
You're a flood and a fire
You're a flood and a fire

Lit to the gills, drifting away
Stiff on a surf, in a distant place
Carrying you to somebody else
You're a flood and a fire
You're a flood and a fire

Hot hot hot
Hot hot hot
Hot hot hot

Beat up and shot through, you're the last to fall
Never the fool from wanting it all
Hittin' it hard night after night
You're a flood and a fire
You're a flood and a fire

The closer the bounder
Sweeter than me
The closer the bounder
Sweeter than me

Ooh, you're flood and a fire
You're a flood and a fire
You're a flood and a fire
You're a flood and a fire
You're a flood and a fire
