I'm riding the wind, don't need your request
You'd never invite me but I will be your guest
Oh no, no don't be afraid of the reaper
It's time to go I call your name and you follow
Fly with me
Take a look around and say you love me
And I will guide you through the golden door
For everything you'll see there is a reason
The big wheel is turning like always before
There is no return from the other side of heaven
For the big wheel turns and the circle must go on
Forever more
How do you like your termination day? So far -
Kiss me good bye, cause I must fade away
Oh no, no don't be afraid of your master
It's time to go it's calling your name now you follow
Fly away
Take a look around and say you love me
And I will guide you through the golden door
For everything you'll see there is a reason
The big wheel is turning like always before
There is no return from the other side of heaven
For the big wheel turns and the circle must go on
Forever more
Welcome to eternal life, my friend
Now take your seat on your cloud
Enjoy your stay
But always remember...
There is no return
There is no return from the other side of heaven
For the big wheel turns and the circle must go on
Forever more
There is no return from the other side of heaven
For the big wheel turns and the circle must go on
Forever more
