"Rescue Me"

Visit "[Rescue Me](#)" on MotoLyrics.com

Walking 'round the supermarket blitz stop in a dream
Thinking 'bout the places far away that we have been
Oh what we have seen

Won't you come over and rescue me?
Won't you come over and rescue me?

Holding on to memories a million miles from here
Opiated, medicated, dreams are all I hold dear
A million miles from here

Won't you come over and rescue me?
Won't you come over and rescue me?

Holding on to memories a million miles from here
Opiated, medicated, dreams are all I hold dear
A million miles from here

Won't you come over and rescue me?
Won't you come over and rescue me?

Won't you come over and rescue me?
Won't you come over and rescue me?
