Music: SchlÃfÃchter / Lyrics: Hansen

We drive, we drive, weÃ,Ã«re riding on through the universe

WeÃ,Ã«ve come to reach our destination planet earth

We come, we run, you cannot see us, flying in our spaceships, shooting Ã,Ã«cross the sky

We explore and we all know what this is about for us all

So many light years we have travelled far from home

Someday weÃ,Ã«ll be there I know

Shine on, Rising star

We travelled such a long way

But still you seem so far

Shine on, Rising star

for our belief in unity at heart

Rising Star

Come on and shine

Living was torture and dying release

A declining world, no future, no hope

We were passing the point of no return

So many light years, still we travel on and on

And someday we will call you home

Shine on, Rising Star

Diamond in the distance, still you seem so far

Shine on, Rising Star

Forever light the darkness in our hearts

Rising Star, Rising Star

Salvation, Damnation

We crawl across the sky with pain

Forever we will fly

Out in the darkness

ThereÃ,Ã«s a never ending light

Solo: Both

Still we are far away

But weÃ,Ã«ll be there one day

Someday we will call you home

Shine on, Rising Star

We travelled such a long way

but still you seem so far

Shine on, Rising Star

Forever light the darkness

in our hearts
Rising Star, Rising Star
Shadows in the darkness, so far away from home
Standing all alone, noone there beside me
Shadows all around, so far away from home
I know IÃ,Ã«m not alone, it seems weÃ,Ã«re lost in
space and time
Shine on
Shine on now, and warm the tears
weÃ,Ã«ve shed through years
ItÃ,Ã«s our prison, final reason for the freedom
and the glory that we feel
Are you for real ?
Shine on, Rising Star
Diamond in the distance
Still you seem so far
Shine on, Rising Star
Forever light the darkness
in our hearts
Rising Star, Rising Star
Shine on, Rising Star
Come on and shine for us
Shine on, Shine forever more
Shine on, Our survival
Rising Star, the last chance for us all
The only hope for future and a home
For us all
For us all
Come on and shine, Rising Star
