You know who I am, show you a land  
Where you can be free, can get your relief.  
Space is all yours, desires come true.  
Love of your life waitin' for you.  
I got no time for wasting all my day,  
Come on and follow, follow me away.  
Spaceeater - you're losing control  
Spaceeater - and I own your soul  
I'll make you happy ain't no lie,  
Come eat my space, you're gonna fly.  
Let me control your senses,  
And lose your mind, your worries inside.  
I got no time to stand and waste my day,  
Come on and follow, follow me away.  
Spaceeater - you're losing control  
Spaceeater - and I own your soul.  
A little bit, a little bit, a little sip, a little hit  
You're drowning in a lustrous whirl, be superman or  
wondergirl.  
Oh, we fly away on supersonic dreams, we ride on  
universal starshine,  
Through space.  
I got no time to stand and waste my day.  
Come on and follow, follow me away,  
Spaceeater
