You know who I am show you a land
Where you can be free can get your relief
Space is all yours desires come true
Love of your life waitin' for you

I got no time for wastin' all my day
Come on follow, follow me away
Space eater, you're losin' control
Space eater, and I own your soul

I'll make you happy ain't no lie
Come eat my space you're gonna fly
Let me control your senses
And lose your mind your worries inside

I got no time for wastin' all my day
Come on follow follow me away
Space eater, you're losin' control
Space eater, and I own your soul

A little bit, a little bit
A little shit, a little hit
You're drownin' in a lustrous whirl
Be Superman or Wondergirl
Oh, we fly away on supersonic dreams
We ride on universal starshine
Through space, space, space, space

I got no time to stand and waste my day
Come on follow, follow me away
Space eater
Space eater
Space eater
Space eater
