"Hammer In A Shell"

Visit "[Hammer In A Shell](#)" on MotoLyrics.com

She cracked a smile broad as the horizon
And all her receptors were firing, oh
Swinging her hips just like ringing a bell
Swing a hammer in on a shell

Oh, making a move just to throw a restraint
You get what'cha is from what'cha ain't, oh
So we gonna trespass on all we dunno
Gonna go where we can go

I feel alright, right
Yeah, we can dupe the design
If we can model the motion
Oh, honey we gonna rise above all the commotion

Collapsing through her event horizon
And all her receptors were firing, oh
Swinging her hips just like ringing a bell
Swing a hammer in a shell

I feel alright, right
Now, we can work the design
If we can manage the motion
Oh, honey we gonna rise above all the commotion

Yeah, we can tame the design
If we can harness the motion
Oh, honey, we gonna rise above all the commotion
Take a dip in your emotion

She's a ringer ever after
Peeling off a crack of laughter
Ha, ha, ha, ha, ha, ha, ha, ha
Rise above the, rise above the
Rise above the commotion
