Where did it all begin
Where's the proof of life
Who is on our side
Is there a blind man's guide
Can I hich a ride
When the life boats slide
Don't know if what I know is true
What's the golden rule
Where am I going to
All the workers do what they do
They are floating too
And the sky is blue
And when the true believers die
More and more get born again
If the queen can cope at all
There's a number she can call
What is the proof of live
A fruitfly in the beehive
What is the proof of live
A fruitfly in the beehive
I quit spinning the plates for you
A fruitfly in the beehive
What is the proof of life
A fruitfly in the beehive

Where are we headed for
For a distant shore
Also a brand new wall
Don't know why I can't asked for more
Don't walk out the door
One of my leftee foe
How is it gonna end
Shut I now repent
And then make amends
Who rote B.R. reblaws
That we did not asked for
But we cleare did know
And when the true belivers die
More and more get born again
If the queen can cope at all
There's a number she can call

What is the proof of life
A fruitfly in the beehive
What is the proof of life
A fruitfly in the beehive
I quit spinning the plates for you
A fruitfly in the beehive
What is the proof of life
A fruitfly in the beehive
