- Aiiyo son, it seems like, everyday  
more and more people begin to get more foul  
Uhn, now dig..  
Association breed assimilation  
Let me tell you what happened  
I'm driving the other night, these two faggots pull me  
over  
Talkin bout I got a broken taillight  
They got a broken headlight  
They shake me down, they tellin me  
that they gon' come and see me tomorrow and have  
somethin for them  
- Word, so what up?  
So now I got somethin for them

[Verse One]

Who's the real criminals, take a look behind the scenes  
Corruption and greed is commonplace routine  
Guess it pays in many ways to have a few schemes  
Shit, I know model citizens that ain't squeaky clean  
You got dirty politicians, dirty judges and dirty cops  
Everyone's on the take, the hood's filled with dirty  
blocks  
How we gonna save the community, they worse than us  
It's like a curse for us, police be the first to bust  
Think about it, that RICO shits no fuckin joke  
For them the evidence'll vanish in a puff of smoke  
I been observant, I'll never be subservient  
I guess you get what you deserve in this  
From project hallways to courthouse hallways  
Some prevail, most see jail, this happens always  
Speed on, before you get peed on  
All I need is more power, then I'ma put the squeeze on

[Hook]

I want more power, I'm gainin more troops  
I'm gaining more respect 'cause I want more juice  
The most influential men, got influential friends  
And I'ma put the squeeze on all of 'em

I watched y'all get fat, now I want my share  
What you ain't got it all? Then I want what's there

The most influential men, got influential friends  
And I'ma put the squeeze on all of 'em

[Primo scratches]

"They wanna see the God catch an L it's all a Set Up" ->

[Verse Two]

Believe me son, I'ma put the squeeze on 'em  
Crooked cats, that confiscate the gats they keepin 'em  
Hustler's Convention every night at D&D  
Had chicks on the strip with Trace in eighty-three  
It's nothin, that why I know I'm on top  
And I'ma stay here 'till I'm paid and owe nothin  
They gon' take they cut, so why shouldn't I  
Eliminate the middlemen, who thought they could die  
Go overseas, make G's and bring it back to the streets  
A never-ending saga when I rap to these beats  
As the minutes go by, you 'bout to get it, know why?  
I'm already in too deep, so forget it, don't try  
Cause all you gonna find is sufferin and pain  
I had enough of you man, I'm 'bout to fuck up your plan  
So speed on, before you get peed on  
All I need is more power, then I'ma put the squeeze on

[Hook]
