CAN'T STAND STILL

I've sown all the fields and I've made the bread
And I've turned out the lights put down my head
Backstreets of love the darkness preys
I'm getting closer to tomorrow every day

But I can't stand still there's work to be done
I'll make it up to you before the down of the sun
Can't stand still there's work to be done
I'll make it back to you before the down of the sun

This morning maze
Four in the morning and I'm still on the run
Backstreets of love the darkness prays
I'm getting closer to tomorrow every day

By the time I get to the other side
It'll be time to come back with the tide
By the time I get to the other side
It'll be time to come back with you by my side

But I can't stand still there's work to be done
I'll make it up to you before the down of the sun
Can't stand still there's work to be done
I'll make it back to you before the down of the sun

Hold on...
