Well it's happening again, like I always thought it would

Madmen dancing in the street and fires rage.
And it's a strange infatuation taking off across the
nations
Crazy dialling confrontation 'cause it's one more move
and it's all over

Gimme some lovin', it's what I need
Gimme little lovin' , makes me feel right
Gimme some lovin' that's the way
Gimme little lovin' makes me say

It's spreading everywhere, showing here and growing
there
There's no time for condemnation ,just to wait.
And it's an eerie indication of things that's turning out
to be
Destruction to distraction,
'Cause it's one more move and it's goodbye,
You know why we've got to say, just

Gimme some lovin' it's what I need
Gimme little lovin' makes me feel right

Gimme some lovin' that's the way
Gimme little lovin' makes me feel like....

They fall, again, on the streets tonight.

And we're wakin' up every day , looking this way
looking that way
Wondering who will come and end this game
Of one more move and it's all over

Gimme some lovin' it's what I need
Gimme little lovin' makes me feel right
Gimme some lovin' that's the way
Gimme some lovin' thats the way
