Shit walkin' through some razor blades, JB, help me
find my way
Taylor B done slipped and made a poet with a baby
face
Mastermind with plenty game, shattered with no
sinners, man
Camping lyrical out the deal, just waitin' on some
money, man

Scriller, check my afterburn, shit, I just had an ooze
Made a quick manoeuvre to enhance the dance I'm
used to do
Split up all your fuckin' word, cut them from all in your
back
Platinum on my stat and trimmin', joanin', diamonds
Gangsta Blac

K C D, we're P A D, K C I think it's over with
Three six grinnin', tap it up, an artifact of rockin' shit
Hate this shit, slap this bitch, this the bitch just like it is
'Quipped with gamers, think they doin' favors tryna
knock a nig

In this for a meal ticket, ain't no time, I gotta kick it
But when this is over and I smile, you cannot get about
Whoopin', lookin', thuggin', muggin', trillin', will blast
and blastin'
If you scared call the police and tell them watch your
back

I think they scared of me
(Call the police)
I think they scared of me
(Call the police)

I think they scared of me
(Call the police)
I think they scared of me
(Call the police and tell them watch your back)

I think they scared of me
(Call the police)
I think they scared of me
(Call the police)

I think they scared of me
(Call the police)
(Call the police and tell them watch your back)

I keep my lyrics clocked on safety down to punish
niggas daily
Down to get off in your shit, bumpin' real hard like
dicks
How been it? Can't fuck with me, playa, a capital P
Light that ass man where's the fire? Dangerous with M I
C

Technical difficulty, bump me out, nigga, no please
Pass me some of that green weed, I show you how buck
I be
I am the bitch made nigga killer
I can't stop till I make scroller nigga, go fuck around,
nigga

Cut up sideways deal with my way, nigga, rock the town
Stand my ground, romp around, nigga, get 'em down
Easily we'll agree, motherfuckin' what they said
Bloody red from your head, yeah, I think they're scared

Nigga, you scared 'cause when I blast, your whole
team fled
Me, my niggas and glocks gon' leave your body soakin'

wet

Kick in the door with the four four
Terrified when I creep from the back hoe

Kickin' down doors, peelin' wood up out the floor
Doin' shows and fuckin' hoes, Taylor Babies and some
mo

Father figure for a nigga, daddy had to lay them low
Clearly pushin' information like they hittin' on that joan

Mentally I say disturbed, troubled brain in this man
I ain't out to please, nah, motherfucker in this game
Just a fact and not a act, fuck with claimin', but do you
Do the same chain gang, know my name, through and
through?

Mr. Blac on a mission takin' time, droppin' rhyme
Thumpin', bumpin', backroom jumpin', sumthin',
sumthin' for your mind
No Versace straight up thug, no Cristal, drink a bub
Like tonight, maybe the mic go hype and place 'em
where they war

Dreamin' schemin' life ain't right, every word done
miss a beat
Pen and papers once I got them halloweens and trick or
treats
Nigga, huh, nigga, what? Give a fuck on T.V.
Gimme one for some terror, motherfucker, he with me

I think they scared of me
(Call the police)
