

Garbage "Doobie Brothers, The"

Visit "[Doobie Brothers, The](#)" on MotoLyrics.com

gather round the corner, half a mile from here
see those long trains running and watch them
disappear
without love, where you would you be now
without love.....
know i saw mr Lucy, down along the traks
she lost her home and family and wan't be coming
back
without love, where would you be now
without love.....
got the illinois central ad, the southern central freight
got keep on pushing mama you know they're running
late
without love where you would be right now
without love.....
well pistons keep on turning and wheels go round and
round
and steel rare blak gold hard and the miles as they go
down
without love where would you be right now
without love.....
where would you be now.....
