Car...car...car...car...car...car

Lets get behind the wheel
We'll go driving
To the mountains
To the roof tops

We can take it nice and slow
I'll be driving
To the Icebergs
To the edges

Car
Get in the car
Car
Get in the car

Head in to the clouds
Past the buildings
By the harbour
Through the storm

Tear across the page
By the marker
Leave the lights on
By the poolside

Car
Get in the car
Car
Get in the car

I can make an honest man of you
I can make you clean if you want me to
I can make you go very far

Just take the car
Get in the car
Car
Get in the car

Take the car...you gotta
feel...anytime...anyplace...anywhere...take the
care...you gotta
feel...anytime...anyplace...anywhere...get in the
car...you gotta feel...anytime...to make it
real...anywhere...get in the car...you gotta
feel...anytime...to make it real...anywhere...get in the
car..you gotta feel...get in the car...to make it real...get
in the car..you gotta feel...get in the car...to make it
real...get in the car..you gotta feel...get in the car...to
make it real...get in the car..you gotta feel...get in the
car...to make it real...get in the car..you gotta feel...get
in the car...to make it real...
