Searching for fun, where do you go
Got your leather boots on
What do you know
And they're playing garbage on the radio

Enter the dark, you wanna run
Enter the night where nobody knows you

Where the boys are and everybody's high
If enough is never enough and
You're down at heart
If the world is BEATING you down then
Come with us
If enough is never enough and
You're down at heart
If the world is getting you down then
Come with us

Back to the bar
Where the place is slamming
All the pretty queens
And the sluts are dancing
And the conscience of politicians slide

All sweat and lust
And filthy habits
All the wanna-bes

Hoping to sell their package
At the carnival of lonely broken hearts

If enough is never enough and
You're down at heart
If the world is BEATING you down then
Come with us
If enough is never enough and
You're down at heart
If the world is getting you down then
Come with us
If enough is never enough and
You're down at heart
If the world is getting you down then

Come with us

Come with us

Come with us

Come with us

Come with us
