For everyone, the story goes
There's a special someone to
make them whole
Someone to give their
heart completletley

And you may search high and low
But when you find your angel
How will you know?
Then you finally get the feelin'
It'll be as clear as the air
You're breathin'

That's when the world seems small
beneath your feet
It's when the stars above are
only just out of reach
When you feel you're alive
For the very first time
Thats when you know that
you're in love

Who can tell the time and place
And you see your soul reflected
their face. It would be a spell your
under. And it'll hit you just
like thnder.

That's when the world feels
small beneath your feet
thats when the stars above
are only just out of reach
when you feel your alive
for the very first time
when yo hold them
in your arms and cant let go
thats when you know

For all my life
I have been searching for
something i could'nt find

but now I no you are the one
I understand I read the signs

'Cause now the world feels
small beneath my feet
and all the stars above
are only just out of reach
when you feel so alive
for the very first time
and theres nothing you cant
rise above
thats when you know
that youre in love
thats when you know
