Pull up to spot like what
Time to see if the place is hot
Is it on 'cause you know if not
We aint gonna stay
Hit the floor,gotta check the scene
DJ aint really happenin'
Let's be ghost it ain't no thing
And be on to the next place

Gotta roll wanna see what's up
All night never get enough
Runnin' round 'till the break of dawn
Is what we do yeah

Club hoppin' No stoppin'
Only way to keep the party poppin'
Keep goin' 'till we wear out the floor
Then we're out the door
Club hoppin' no stoppin'

Only way to keep your body bumpin'
Keep movin' 'til a quarter to four
Then we hop some more
Later on and i'm feelin' nice

Club is packed and the music's tight
Live it up in the disco light
You deserve to play
Grab a booth in the VIP
Got you all the drinks on me
Conversate a bit with my peeps
Then we're on our way

From chill out lounges to the craziest of clubs
We're only tryin' to have some fun
From after parties to hotel lobbies all night long
Can't ever seem to get enough of you
