for everyone  
the story goes  
there's a special someone  
to make them whole  
someone to give their heart completely

and you may search  
high and low  
and when you find your angel  
and when you know  
then you finally get that feeling  
it'll be as clear as the air you're breathing

that's when the world feels small beneath your feet  
its when the stars above are only just out of reach  
when you feel you're alive for the very first time  
and there's nothing that you can rise above  
that's when you know that you're in love

who can tell the time and place  
when you see your soul reflected in their face  
it'll be a spell you're under  
and it'll hit you just like thunder  
that's when the world feels small beneath your feet  
it's when the stars above are only just out of reach  
when you feel you're alive for the very first time  
and when you hold them in your arms and cant let go  
that's when you know

for all of my life  
I have been searching  
for something I couldn't find  
but now that I know that you are the one  
I understand  
I read the signs

cos now the world feels small beneath my feet  
and all the stars above are only just out of reach  
when you feel you're alive for the very first time  
and there's nothing that you can rise above  
that's when you know that your in love
