And there's a cool cat in town  
Don't you try to take him down  
He's a cat, he's a cat, he's a cool cat  
Make him party in the night  
He will show you how to move  
He's a cat, he's a cat, he's a cool cat  
There's a cool cat on ground  
He's the best of all you frown  
He's a cat, he's a cat, he's a cool cat  
Make him party in the night  
When a feeling is all right  
He's a cat, he's a cat, he's a cool cat  
(Oh ha. You're a cool cat, cool cat baby, cool cat  
You're a cool cat, cool cat baby, cool cat)

And there's a cool cat in town...  
He's a sweet sensation making your day  
With a big temptation I was demanding  
He's a sweet sensation breaking your heart  
And with a big temptation you never let him go fucking  
shite
