Baby Jean  
Vaudeville queen  
She love to ragtime in the night  
I know I'm gonna miss my baby Jean  
Cause she treats me oh so right

But the New York Skyline  
it's calling me home tonight  
Female, feline, feminine,  
she's been making my world so bright

Hindsight, foresight  
Sometimes we've got no sight at all  
New love, true love  
Sometimes we've got no love at all  
But the New York Skyline it's  
calling me home tonight  
Female, feline, feminine,  
She's been making my world so bright

New York Skyline, New York Skyline  
I can see those city lights  
And I can feel those neon signs  
Bright lights, big city  
Well it must be modern times  
Yes it must be modern times  
Well it must be modern times
