(Madonna/Stuart Price)

I don't wanna hear, I don't wanna know
Please don't say you're sorry.
I've heard it all before and I can take care of myself.
I don't wanna hear, I don't wanna know
Please don't say "forgive me".
I've seen it all before and I can't take it anymore.

You're not half the girl you think you are.
Save your words because you've gone too far.
I listened to your lies and all your stories.
You're not half the girl you'd like to be.

I don't wanna hear, I don't wanna know
Please don't say you're sorry.
I've heard it all before and I can take care of myself.
I don't wanna hear, I don't wanna know
Please don't say "forgive me".
I've seen it all before and I can't take it anymore.

Don't explain yourself 'cause talk is cheap.
There's more important things than hearing you speak.
You stayed because I made it so convenient.
Don't explain yourself, you'll never see, I don't wanna hear.

(Piano solo)

I don't wanna hear, I don't wanna know
Please don't say "forgive me".
I've seen it all before and I can't take it anymore, I don't
wanna hear.
