### "Big Enough"

Visit "[Big Enough](#)" on [MotoLyrics.com](https://MotoLyrics.com)

From everything, from everything to nothing  
Did you get what you wanted  
Will you always, will you always be haunted  
Be haunted by a love you couldn't take  
You let it slip away

Cause we, we were in love  
And I thought it was big enough  
And I held you to me  
Till you had to be free  
Till you had to be free

Witholding, witholding all your best thoughts  
Cause you were so afraid  
One day, one day you're gonna get caught  
Get caught up in a mess you cant weasal out  
You will know what you found

We, we were in love  
And I thought it was big enough  
I held you to me  
Till you had to be free  
Till you had to be free

The door is wide open  
And the bags are finally packed  
Before you go, I just want you to know  
I'm hoping you'll find your way back

Cause we, we were in love  
And I thought it was big enough  
And I held you to me  
Till you had to be free  
Till you had to be free
