Sometimes what you don't say  
Makes all the difference  
Sometimes you find your own way  
Without interference

It's not all darkness  
It's not all light  
You don't have to fix this  
Sit with me tonight

Sound of our breathing  
And the TV in light  
I don't want to fight it  
Just sit with me tonight

Oh, oh, oh, oh, oh  
Oh, oh, oh, oh, oh, oh

We pray for acceptance  
We pray for deliverance  
We pray for understanding  
Like it makes all the difference

It's not all the way you left  
It's not all right  
You don't have to fix this  
Sit with me tonight

Sound of our breathing  
And the TV in light  
I don't want to fight it  
Just sit with me tonight

Oh, oh, oh, oh, sit with me tonight  
Oh, oh, oh, oh, tonight, tonight
