She swears there's nothing wrong, but something's
missing

She's never been much good at telling lies

'Cause you can hear the sound of leaving, if you listen

This may be California, but Oklahoma's in her eyes

I've got a good thing going

It's plain to see she's tired of hanging on

I've got a good thing going

It's killing me that she's as good as gone

By now she must be tired of always giving

And tired of what she's getting in return

I guess Oklahoma's more her style of living

'Cause I can see her heart is heading 'cross a bridge I
thought she'd burned

I've got a good thing going

It's plain to see she's tired of hanging on

I've got a good thing going

It's killing me that she's as good as gone

Lord it's killing me that she's as good as gone
