

Garth Brooks "Lost In You"

Visit "[Lost In You](#)" on MotoLyrics.com

There's no more waitin', holdin' out for love
You are my Godsend that I have been forever dreamin'
of
My angel from above

Heaven knows, I'm head over heels and it shows
I've played every field, I suppose
But there's something about you when you're around
Baby, I have found, I get lost in you

What is this feeling I've never known before?
That I should dare to, swear into, surrender ever more
That's what I came here for

Heaven knows, I'm head over heels and it shows
I've played every field, I suppose
But there's something about you when you're around
Baby, I have found, I get lost in a wonderful daze
Lost in your wonderful ways, Heaven knows

When you're around, baby, I have found I get lost

Heaven knows, I'm head over heels and it shows
I've played every field, I suppose
But there's something about you when you're around
Baby, I have found, I get lost in you
