I remember the smile on her face  
When i put you on her finger  
I felt the love in her sweet embrace  
And all the happiness you brought her  
I still see it all in my mind  
The way she loved me  
All the time

CHOURS  
Ring, ring  
You aint nothin but a thing  
Yesterday we used to hold her  
Little band of gold  
With a little blue stone  
I'm sure gonna miss the hand  
That you were on

She'd wear you when we were together  
She'd wear you when i was gone  
Cause we believed in love forever  
But i guess we were wrong  
Now she's found somebody new  
She doesnt't care you  
Me or you

REPEAT CHOURS

Wish i could put it all behind  
But i can't keep her off my mind  
Oh, oh  
What can i do?

REPEAT CHOURS

Little band of gold with a little blue stone  
Oh...
