

Gary Allan "No Regrets"

Visit "[No Regrets](#)" on MotoLyrics.com

She's been gone about three years
It's been a long road and a million tears
I'm movin slow but I'm movin on
The sweetest memories still remain
The laughter we had and the love that we made
Every night I go to bed alone

With no regrets
A piece of mind
Lived so much time in so little time
I'm so glad when she was here
She was mine
From the day we met
To the night she left
I loved her, no regrets

Well time and fate can be controlled
You play the hand that you're dealt
And the dice that you rolled
And who might of questioned God anyway
Well these days when I look back
I know I'm blessed to be loved like that
I still miss her everyday

With no regrets
A piece of mind
Lived so much time in so little time
I'm so glad when she was here she was mine
From the day we met
To the night she left
I loved her, no regrets

From the day we met
To the night she left
I loved her, no regrets

No regrets
I loved her
With no regrets
