No worries

I don't have a single care today

Everything is gonna go my way

No worries

Don't hurry

I can love you girl the whole night long

I'll play guitar for you and sing my songs

No, No, No, No worries

If life brings rain we'll grow roses

It don't matter what life throws us

I'm alright as long as I've got you, you, you, you

No worries

Let's find a board and chase the sun

We'll smile and wave at everyone

No, No, No, No worries

So let's get lost out on the ocean

Never look back just keep floatin

I'm alright as long as I've got you, you, you, you

No worries

I don't have a single care today

Everything is gonna go my way

No, No, No, No, No worries

Don't hurry

Cause I can love you girl the whole night long

Play guitar for you and sing my songs

No, No, No, No worries

No worries

No, No, No, No, No worries

No, No, No, No, No worries

No, No, No, No, No worries
